10

The challenging second nine at River's Edge tends to offer wider landing areas and increased length. Uphill second shot to elevated green requires 1 more club.

---

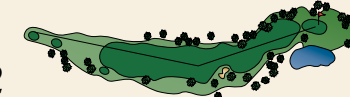

11

Favor left center of fairway with 1st and 2nd shots as ball will kick to the right. Pond on right is 230 yards from gold tees.

---

12

Ideal shot is 240 yards down the middle of fairway. A fairway bunker on the right is 250 yards away from the gold tees.

---

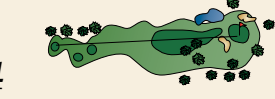

13

Layup to bunker from gold tees is 240 yards and 260 yards to carry the bunker. Tee shot should be played left of bunker. Leave second shot below hole.

---

14

Downhill shot to a deep green plays 1 club less. Lateral hazard left of entire hole and long.

---

15

Restroom  
Favor right side off tee as ball will kick left. Approach shot is uphill to elevated green requiring one more club.

---

16

Elevation change allows for a 2 club drop in club selection. Balls hit at tree left of green will kick right of the hill.

---

17

Play 1st and 2nd shots up right side of fairway. 3rd shot is uphill requiring one more club. Trouble left of green!

---

18

Ideal shot is a 225 yard drive down the middle of fairway. Too far right and long brings water into play at 250 yards.

Golf Package & Real Estate Information: (800) 547-3928

- 1  Focus at 150 marker located at right side of fairway as ball will kick left. Carry from gold tee is 200 yards with drop.
- 2  200 yard drive down the left center will leave a short iron to this uphill tiered green. Right of walking trail is lateral hazard.
- 3  Target line is large tree left of fairway bunker. Fairway bunker plays 220 yards from Gold Tee/185 yards from White Tee, due to elevation.
- 4  Pin position may alter club selection due to depth of green.
- 5  Restroom Aim tee shot over fairway mounds. Layup second shot no more than 235 yards to approach area. OB right of green.
- 6  Aim center of fairway. 200 yard drive from gold tee is the desired distance as the water hazard on the left plays 225.
- 7  Observe hazards right and long on this 3 tiered green. Make conservative club selection to relevant tier.
- 8  200 yard drive hit right of rock outcropping is ideal. Beware of lateral hazard down the entire right side of fairway.
- 9  Aim to center of fairway off the tee (235 yards). Key to this hole is conservative second shot down right side of fairway, setting up approach to deep green.
